Math	nematics - Are all components present?
0	Yes
•	No
Wha	t mathematics components are missing?
	Other Resources
Math	nematics - Identified Strategies:
	Strategies are clear and focused.
	Rational is given for choice of strategies.
Ш	Specific and research-based strategies stated.
	Strategies are measurable.
	Method, materials, and timeframe for implementing strategies are indicated.
	Strategies are based on realistic expectations.
<b>~</b>	Mathematics identified strategies are unclear and/or lacks specificity.
	Mathematics identified strategies do not support stated goal.

Ongoing and sustainable professional development is evident.  Needs assessment drives professional development.  Follow-up plan is included for continued professional development throughout the year.  Topics or content of professional development matches goal and strategies.  Commitment to plan and its components is evident.  The implementation of new resources (math program, curriculum, and/or textbook/materials) is supported by professional development for the impacted staff throughout the year.  Evaluation of the student data is used to assess the impact of professional development.  Mathematics professional development goal is unclear and/or lacks specificity.  Mathematics professional development goal does not support stated goal.  Reading - Are all components present?  Yes  No  What reading components are missing?  Other Resources  Reading - Identified Strategies:  Identified strategies are focused on standards based instruction and resources.  Identified strategies to reach reading goal are not based on data.  Identified strategies to reach reading goal are not based on data.  Identified strategies (or Professional development) to reach reading goal lack specific connection to student achievement in reading.  Identified strategies support reading goal.  Consider multiple sources of measurement to collect reading achievement data.  Reading - Professional Development:  Professional development goal is missing.  Consider professional development that is directly correlated to yearly goal.  It would be advantageous to report data on impact of professional development and the number of teachers that have participated or vill participate in professional development.  Consider evaluating the student data to assess the impact of professional development.	Mathematics - Professional Development:
